PROFESSIONAL SUMMARY

Aspiring Java Developer with strong foundations in Core Java, OOP, Data Structures, Algorithms, SQL, and Spring Boot. Experienced in building academic and personal projects using Java, Spring Boot, React, and MySQL. LeetCode Knight with 1000+ problems solved, passionate about backend development and software engineering.

EDUCATION

Bachelor of Engineering — Computer Science — Adhi College of Engineering and Technology, Anna University 2022 – 2026
CGPA: 8.35 / 10.0

TECHNICAL SKILLS

Languages: Java (Primary), Python, C, SQL
Frontend: HTML, CSS, JavaScript, REACT
Backend: Spring Boot, Spring MVC, REST API Design, JDBC, OOP, Design Patterns
Databases: MySQL, Joins, Indexing, Normalization, Transactions, Schema Design
CS Fundamentals: OS, Computer Networks, DBMS, Low-Level Design (LLD), Layered Architecture
Tools: Git, GitHub, IntelliJ IDEA, Postman, Maven, VS Code
Problem Solving: Data Structures & Algorithms — 1000+ problems

PROJECTS

AI – Powered Expense Tracker — Personal Project June 2025

Tech Stack: Java, Spring Boot, MySQL, JWT, Python, Fast API, RAG, REST API

- Built and deployed a full-stack AI-powered Expense Tracker using React, Spring Boot, MySQL, Python, and FastAPI, enabling users to manage expenses, generate reports, and track spending patterns.
- Integrated a RAG-based AI assistant to analyze monthly expense reports and answer financial queries through natural language, helping users gain actionable insights into their spending habits.

TalkHub — Real-Time Chat Application — Personal Project May 2024

Tech Stack: Spring Boot, WebSocket (STOMP), MySQL, HTML, CSS, JavaScript

- Developed a full-stack chat application using Spring Boot and WebSocket (STOMP) supporting real-time messaging, online/offline status, typing indicators, and live updates without page reloads.
- Optimized MySQL schema for chat history with efficient queries; implemented REST-based login, contact management with user search, and auto-save on first message exchange.

Banking Management System — Personal Project Jan 2023

Tech Stack: Java, JDBC, MySQL, BCrypt

- Built a role-based banking system (Admin/User) supporting account management, deposits, withdrawals, fund transfers, and transaction history using JDBC and BCrypt password hashing.
- Applied JDBC transactions to ensure ACID-compliant operations, preventing partial updates and maintaining data integrity during concurrent fund transfers.

CERTIFICATIONS

Spring 5 Basics with Spring Boot | Spring REST | Spring Data JPA — Infosys Springboard March 2025

ACHIEVEMENTS & AWARDS

- LeetCode Knight Badge — 1000+ problems solved; ranked Top 39,000 globally across arrays, graphs, dynamic programming, and system design.
- 1st Prize — College Coding Contest; 2nd Prize — Technical Quiz Competition.
- 2-Star Coder on CodeChef and GeeksforGeeks (GFG) competitive programming platforms.
